## PROFILE

In August 2015, Mr Gibbs launched an independent FX research company called Amplifying Global FX Capital from which he produces a flagship report called "AmpGFX" and a premium research service called "Real Time Analysis". You can subscribe to receive his flagship report at [www.ampGFXcapital.com](http://www.ampGFXcapital.com) and tap into his personal trading strategy by subscribing to Real Time Analysis.

Mr Gibbs has worked in FX Strategy for the last 16 years covering major and Asian currencies. Previously he spent four years in FX and fixed income sales to global institutional clients and six years at the RBA in FX reserves management and FX policy, including managing a Japanese fixed income portfolio, and global financial markets economic research.

In his previous role as Head of Asia Pacific Markets Strategy at RBS based in Singapore he regularly presented to clients in Asia, Europe and America on global FX and the rates outlook in Australia and New Zealand. He first established the Amplifying Global FX report in 2012 at RBS in Singapore and has maintained a trading record in G10 currencies since March 2013.

## CAREER RECORD

### May 2015 – Apr 2017: Founder, Analyst and PM, Amplifying Global FX Capital

- Incorporated in Australia, obtained an Australian Financial Services Licence, obtained a US business visa and build a website in 2015.
- Started posting and distributing the AmpGFX report in October 2015. Moved location from Singapore to Breckenridge Colorado in December 2015.
- Australian FSL variation approved to allow managing trading accounts for wholesale clients in February 2017
- Redeveloped website to take subscriptions for AmpGFX reports and a premium Real Time service, ready to deploy in May 2017
- Maintained a trading track record, trading capital held by the company.

### Feb 2014 – Aug 2015: Head of Asia Pacific Markets Strategy at RBS based in Singapore

- Managed a team and generated FX and rates strategy for Asia and G10 FX.
- Synthesized the influence of the Asia region on global FX markets and how global markets impact on Asia.
- Daily publication called "Amplifying Global FX". A trading view orientated report discussing fundamental analysis of topical themes and their implications for the FX market.
- Since 7 Mar 2013 trading in spot G10 FX. In 2013, over almost 10 months, trading return was \$513,500. The sum of percentage returns assuming each trade was equal in size was 30.8.
- In 2014, trading return was \$1,188,600. The sum of percentage returns assuming each trade was equal in size was 43.2%. For further discussion and results from 2013- 2017 see the [Trading Performance](#) page on the Amplifying Global FX Capital website.

- The bank's leading analyst for Australian and New Zealand economies and interest rate calls.
- Regular global marketing, presenting to clients.
- Regular appearances on CNBC Asia and Bloomberg TV.
- Strong relationships with many significant clients globally and central banks in the Asia region.

#### **Jul 2012 – Feb 2014: Senior FX strategist at RBS based in Singapore**

- Responsible for G10 FX strategy in the Asia time zone.
- Senior member of the global FX strategy team. Responsible for the bank's AUD, NZD and JPY forecasts.
- Economic analysis and interest rate calls for Australia and New Zealand.

#### **2005 – July 2012: Senior FX strategist at RBS, and formerly ABN Amro, based in Sydney, Australia.**

- Responsible for G10 FX strategy in the Asia time zone. Produced a highly rated daily trading focused and thematic global markets commentary.
- Marketing at least quarterly within Asia, annually to North America and Europe. Maintained a high profile in the print and TV media.
- Presented daily in the Sydney capital markets morning meeting and the Asia FX sales 'squawk box' meeting.

#### **2003 - 2005: Senior FX strategist with RBC, based in Sydney**

- A similar role, also responsible for calls on Asian currencies.
- Produced specific trade ideas and monitored performance. Generated a track record that was very strong in the first year and solid in the second and third years.
- Traded successfully with modest limits.

#### **1999-2002: Westpac based in New York.**

- Started in capital market sales; selling AUD and NZD fixed income products. In 2001, moved to FX strategist.
- Set-up a "Dollar-bloc weekly" covering AUD and NZD fixed income and currency strategy aimed at North American clients.
- After moving to FX strategy, started a weekly report called "FX Focus". Produced an editorial for the report each week covering major currencies. It was trading focused and recommend trades for the week ahead.
- Regularly presented to clients across the USA and Canada, marketing with our North American FX sales team.

#### **1996 – 1999: Bankers Trust**

- FX sales based in Sydney. Team leader for Asian time zone coverage of North American mutual fund accounts.
- Chaired the daily Sydney team FX meeting. Wrote daily commentary and this was adopted as the global daily FX report to which the FX strategists also contributed.
- In 1999, moved to BT London to provide specialist AUD and NZD coverage for European accounts.

### **1989 – 1995: Reserve Bank of Australia**

- Economist in International Department. Moved to FX dealing and conducted intervention.
- Set up the Bank's performance attribution system for international FX reserves.
- A member of the asset allocation committee and managed FX risk around benchmarks.
- Became manager of the JPY fixed income portfolio, with discretion to trade around duration targets, take curve risk and manage futures basis risk.
- Acting head of a section that conducted research into the Australian FX market before accepting an offer at BT.

### **Education**

- CFA Charterholder since 2005
- Bachelor of Economics (Honours) Australian National University 1989
